

May 7, 2020

Grover C. Dils Medical Center and the Lincoln County Health Officials have received notification of a second confirmed **positive** case in our community. This patient is located in the Pioche, NV area and was tested through our facility. We are aggressively pursuing the identification of all direct contacts. At this time the individual is not hospitalized and has been quarantined at home since testing occurred.

We want to take this time to express the importance of the following and being aware of signs and symptoms.

- Maintain social distancing.
- If you are under isolation/quarantine please comply. You can spread the disease without knowing.
- Maintain personal hygiene by hand washing, sanitizing, and not touching your face.
- If you are ill, stay home.

Signs and symptoms can include:

- Cough
- Shortness of breath or difficulty breathing
- Fever
- Chills
- Muscle pain
- Sore throat
- New loss of taste or smell

If you are experiencing any signs or symptoms listed above please call our clinics or hospital in advance and we will be happy to schedule an appointment.
